

Figure I

Incorporating the **S.O.A.P.** formula, Subjective information, Objective data, Assessment and Plan, into the patient record helps document the rationale for surgery.

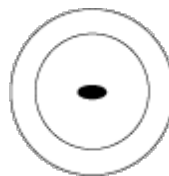

- S.** Patient complains of increased difficulty with bright lights, glare and night driving.
- O.** Diminished visual acuity with glare testing.

Low Medium High

OD 20/30 20/30 20/40

OS 20/30 20/50 20/100

Visualization of cataract OS near center of visual field.

- A.** PCS of OS.
- P.** Discuss cataract surgery and alternatives with patient and schedule surgery if acceptable to patient.
